CRAFTED RECIPES FOR LIFE IN HARMONY

product catalogue

## WHO WE ARE

We are a family of passionate crafters. Every day, we explore recipes for living in harmony.

## WHAT WE DO

In everything we do, we inspire people, pets and communities to live in harmony with Nature.

## HOW WE DO IT

We share the values of crafters and carefully blend their legacy in everything we do.

## WHAT WE BELIEVE IN

If you, like us, believe that life in balance with Nature isn't just feeding pets the natural way, but also to live, share, feel and grow all together as a whole - then we are on the same page.

For us, life is more than just owning.

It is also about trying to change things for the better – not only for our dogs and cats – but our planet as well. That is why we use renewable solar and thermal energy in our production.

And recyclable bags as well!

We also believe that beauty of life can be put together in the size of a bite for our dogs and cats.

One of our main principles is that Nature should not be altered and that is why we are huge fans of using fresh ingredients in our products.

## WHERE YOU CAN FIND US

We are trying to reach dogs and cats all around the world. We believe that there are people all over the world that share the values of our passionate crafters. That is why we are trying hard to distribute our products in specialized pet shops and credible partners all around the world, on all six continents.

### LIFE STAGE AND BREED SIZE COMPATIBILITY

We make sure that our products are adapted to all life stages, breeds and conditions of our pets - whether they are puppies or kittens who have just become members of our family, or veterans with whom we have spent years of life in happiness and harmony.

### LIFE-COURSE PERSPECTIVE

We strongly believe that our future health condition depends on the quality of our nutrition of today. Every period in the life of our pets is equally important, so we make sure that they get exactly what they need every given day. Well-being is a long-term process and a never-ending goal, and that gives us the perspective that we always respect and follow.

### HARMONY WITH THE ENVIRONMENT

Everything we do, we do in the rhythm of Nature – the most important thing for us is to keep its balance and peace by renewable energy, recycling, responsible sourcing, home-environment testing and supporting local and farming communities. We all share one planet and it is our duty to keep it in the best state possible.

## OUR PHILOSOPHY

When we gathered around the idea of sharing the legacy of crafters, we defined seven key principles, guiding us to do everything in harmony with Nature and keeping the legacy alive:

### WHOLE-BODY WELL-BEING

We have created the NutriBiome™ concept that boosts healthy and diverse microbiome population in the body of our pets.

### NUTRACEUTICAL APPROACH

Carefully selected botanicals blended with phytonutrients and other nutraceuticals provide support for the immune system and enable balance of body and mind.

### FUNCTIONAL NURTURING

We believe that key functional ingredients go hand in hand with our goal to promote the healthy skin, skeletal, muscular and nervous system of our pets. The key for looking great outside is addressing their particular needs inside.

### THE FINEST SELECTION & CRAFTWORK

We are looking to the past that was defined by our family of crafting forefathers, while moulding the future at the same time. Crafting principles, best technology and raw materials, small batches and ultimate quality, all in harmony, are key manufacturing principles. Every kibble in our kitchen is made with the highest possible level of devotion, enthusiasm and skill. Nature already gave us all, so we just make sure to take it to the state of the art, with our fine and delicate touch.

## WHERE WE GO

Our goal is not only to make great food. We believe that living and working in harmony with Nature has a huge potential for pet owners that share values with us. Their life deserves to have support from our side in many other areas. Our team works relentlessly, not only focused on pet food, and you can expect us coming soon with support in many other areas of life. We always look at the big picture and we want to deliver our philosophy in many different ways. That way, our bond with our pets will be taken to a whole different level.

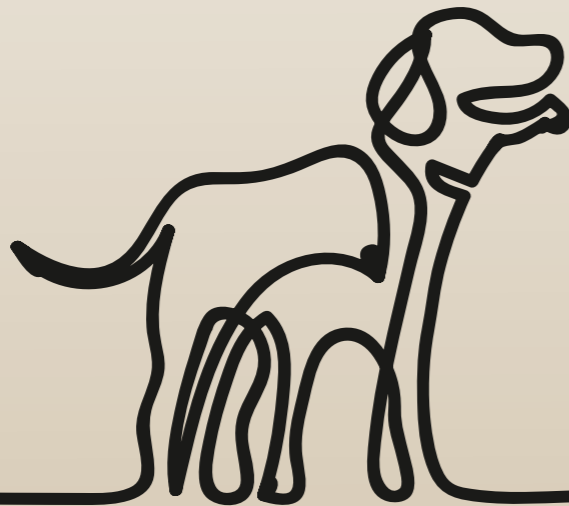

## OUR TEAM

First of all, every one of us is in love with some pet – dog or cat. We are a family of devoted crafters and we are on the mission 24/7. Combined, we have more than 200 years of experience and work all around the globe. Each one of us brings their unique expertise from different fields and that puts us in a position to always strive for excellence – to the point where food making becomes art.
